

# Durable moisturization for at-risk or severely dry skin

3M™ Cavityon™ Durable Barrier Cream

Formulated with Solventum polymer technology, Cavityon Durable Barrier Cream is a concentrated, fragrance-free moisturizing skin barrier that resists wash-off and allows adhesives to adhere. It's ideal for moisturization of at-risk and/or severely dry skin. It also provides a barrier which protects skin at low risk for breaking down.

# Where ingenuity and innovation meet real-world needs

3M™ Cavilon™ Durable Barrier Cream features an innovative, polymer-based formula that:

- ✓ Moisturizes at-risk and severely dry skin
- ✓ Provides a breathable barrier to promote skin health
- ✓ Resists wash-off, eliminating the need for frequent reapplication
- ✓ Allows tapes and dressings to adhere
- ✓ Helps reduce product used due to its concentrated formulation

## More resistant to soaking and washing

In one study, Cavilon Durable Barrier Cream provided better barrier effectiveness than the competitor, even after 4 soak cycles and 3 cleansing steps.

Further testing showed that Cavilon Durable Barrier Cream had significantly greater barrier effectiveness remaining after 4 soak cycles than the competitor had after 1\*.

## Ordering Information

Cat No	Product	NDC/NHRIC No.	Size	Items/Box	Boxes/Case	HCPCS Code
3353	Cavilon Durable Barrier Cream Fragrance Free	17518-028-03	2g sachet	20	12	A6250
3354	Cavilon Durable Barrier Cream Fragrance Free	17518-028-01	1.0 oz. tube	48	1	A6250
3355	Cavilon Durable Barrier Cream Fragrance Free	17518-028-02	3.25 oz. tube	12	1	A6250

HCPCS codes have been provided to assist you in the preparation of insurance claims. Please note, however, that the reimbursement information provided by Solventum Health Care and its representatives is intended to provide general information relevant to coverage and coding for Solventum products. Insurers' reimbursement policies can vary and the use of the codes discussed here does not guarantee that an insurer will cover or pay at any particular level. Health care providers should exercise independent clinical judgment in choosing the codes which most accurately describe the products provided.
