

3M™ Medipore™ H Soft Cloth Surgical Tape

Made to move with your patients

The choice for stretchable, conformable securement

Medipore H Soft Cloth Surgical Tape features a soft, conformable backing with bi-directional stretch to accommodate swelling and movement, while minimizing the risk for skin injury.

Conformable

Bi-directional stretch accommodates swelling, distention and movement

Breathability

Highly breathable, soft cloth tape

Easy to use

Easy tear at perforations with no scissors necessary

Helps reduce risk

Single-use length rolls can help reduce the risk of cross-contamination

3M™ Medipore™ H Soft Cloth Surgical Tape

Clinical application: Flexible securement

- Dressings and added pressure
- Secondary securement for:
 - IV lines and tubing
 - Central venous catheters
 - Chest tubes
 - Surgical drain tubes
- When swelling or movement is anticipated
- When repeated taping is needed

Ideal for patients who need to maintain movement or are experiencing swelling or distension.

Tape material: Perforated nonwoven soft cloth

Stretches to accommodate swelling and movement

Conforms to challenging contours
