

# Solventum™ V.A.C.® Simplace™ Ex Dressing

For complete instructions for use and safety information, please refer to the labeling provided with the product

## Step 1.

Perform a thorough cleaning of wound and periwound area per physician order or institutional protocol prior to each dressing application. Dry periwound tissue.

## Step 5.

Carefully tear the V.A.C.® Simplace™ Ex dressing along the perforation to a size that will allow the foam to be placed gently into the wound without overlapping onto intact skin. Do not cut the foam over the wound as fragments may fall into the wound.

## Step 2.

Assess wound dimensions including presence of undermining or tunnels.

## Step 6.

Gently place the foam into the wound cavity ensuring contact with all wound surfaces. Do not pack the dressing into the wound. Always count the number of foam pieces placed in the wound. Record on the Foam Quantity Ruler and place in the patient record.

## Step 3.

Consider the use of skin preparation product to protect the periwound skin.

## Step 7.

Trim the V.A.C.® Drape to cover the V.A.C.® Simplace Ex dressing and an additional 3 to 5cm border of intact tissue.

## Step 4.

Protect fragile or friable periwound skin with additional Solventum™ V.A.C.® Drape, hydrocolloid, or other transparent film.

## Step 8.

Place the adhesive face down and apply V.A.C.® Drape to cover foam and intact skin ensuring V.A.C.® Drape covers at least a 3 to 5cm border of intact periwound tissue.

### Step 9.

Pinch Solventum™ V.A.C.® Drape and carefully cut a hole approximately 2.5cm through the drape.

### Step 12.

Pull back on blue tab to remove pad stabilization layer.

### Step 13.

Connect Solventum™ SensaT.R.A.C.™ Pad tubing to canister tubing and ensure clamp on each tube is open.

### Step 10.

Remove both backing layers from pad.

### Step 14.

Turn on power to the Solventum™ V.A.C.® Therapy Unit and select prescribed therapy settings to initiate therapy.

### Step 11.

Place pad opening in central disk directly over hole in V.A.C.® Drape, and apply gentle pressure to ensure complete adhesion of the pad.
