Closing spaces with Solventum™ Filtek™ Matrix

Clinical case | Dr. Marcos Vargas

About the case

A 13-year-old male patient presented after orthodontic treatment with spaces between teeth due to undersized anterior teeth.

Challenge

The patient disliked the spaces between his teeth and wanted a harmonious and balanced smile. A conservative approach was desired.

Outcome

Using the Filtek Matrix allowed for efficient, predictable treatment. The patient now has whiter teeth and closed spaces, as desired.

About Dr. Marcos Vargas

Dr. Marcos Vargas attended Cayetano Heredia University School of Dentistry in Lima, Peru and graduated in 1985. He spent two years, 1990 to 1992, in the AEGD program at the Eastman Dental Center in Rochester, New York. Dr. Vargas received his Certificate and Master Degree in Operative Dentistry in 1994 at the University of Iowa where he is currently a Professor in the Department of Family Dentistry. His primary research interests are in the area of dental materials including glass ionomers, dentin bonding, composite resins and esthetic dentistry. Dr. Vargas is also recognized for his expertise of Direct Restorative Treatment Procedures and conducts numerous lecture and hands-on seminars in the US and internationally. Dr. Marcos Vargas has published extensively in the area of dental adhesion and resin composites for over 20 years. He maintains a private practice limited to Restorative Dentistry with an emphasis on aesthetic dentistry.
