

3M Health Care is now Solventum

Focus on delivering care, not documenting.

Solventum™ Fluency Align™ is an AI-powered ambient documentation solution that captures, transcribes, and summarises clinical conversations in real time, letting clinicians focus on care, not paperwork. Using advanced speech recognition and NLP, it identifies speakers, extracts key details, and generates structured notes within seconds – all seamlessly integrated with more than 250 EHRs, including all major platforms (Epic, Cerner, Meditech, System-C, Allscripts, EMIS Health and more) to achieve faster EHR adoption.

49%

of clinicians report
feeling burned out

62%

of clinicians pointed
to administrative
work as their top
source of burnout

41%

of clinicians said
they are working
too many hours

43
minutes

Computerised
clinician order entry
(CPOE) accounts for
43 minutes of EHR
time for clinicians
each day

Make it simpler for clinicians to:

Capture the patient-clinician interaction

- Unobtrusively and in real time
- Conveniently, accurately and securely with the **Solventum™ Fluency Align™** or our mobile app

Navigate the EHR with ease

- Use speech commands and intuitive workflows
- Conversationally input and retrieve data
- Cut time in the EHR by speech enabling CPOE

Automate notes with the help of generative AI

- Notes created as a by-product of the patient-clinician encounter
- Notes are ready in real time
- Notes are delivered to the EHR for clinician review and sign off

Key benefits

Improve the patient and
