Temperature Management
Solutions

Solventum™ Temperature Management Solutions

Solventum helps change people's lives for the better. By applying our knowledge to clinicians' needs, we have developed a broad configuration of temperature management solutions. The 3M™ Bair Hugger™ Temperature Monitoring System, 3M™ Bair Hugger™ Warming System, and 3M™ Ranger™ Blood/Fluid and Irrigation Fluid Warming Systems and Pressure Infusors aim to standardize temperature management worldwide, helping deliver positive patient experiences and outcomes.

Learn how Solventum Temperature Management Solutions can help your clinical teams at [solventum.com](https://www.solventum.com).

775 Warming Unit

3M™ Bair Hugger™
675 Warming Unit

3M™ Bair Hugger™ 875 Patient Adjustable Warming Unit

For use in preoperative and postoperative settings only.

- Personalized comfort as patients can control the unit's airflow and temperature — ambient to 109°F (43°C)
- Flexibility in mounting the unit on the wall, a bedrail or an IV pole; the unit can also be placed on a flat surface
- Built-in hose storage
- Compatible with 3M™ Bair Hugger™ Flex Warming Gown, 3M™ Bair Hugger™ Plus Warming Gown and 3M™ Bair Hugger™ OR Warming Gown

Model 875

Dimensions	Height: 13" (33 cm) Width: 7.7" (19.6 cm) Depth: 4" (10.2 cm)
Weight	7.0 lb (3.2 kg)
Operating temperatures	User adjustable ambient to 109°F (43°C) ±3°C
Filter	Dust filter
Device ratings	100–120 VAC: 50/60 Hz, 4.6 Amps
Compatibility	Use only with 3M™ Bair Hugger™ Warming Gowns
Spare parts and additional items	Controller, Controller Holder, IV Pole Mount, Mounting Brackets, Suction Mount Adapter, Temperature Test Unit, Wall Mount, Wall-to-Rail Mount

3M™ Bair Hugger™ 775 Warming Unit

For use in all clinical settings.

- Four temperature settings including an ambient setting
- Two airflow settings
- Hose-end temperature sensing
- Audible and visual over-temperature alarm
- Tracks and reports therapy duration and cumulative hours used (via built-in meter), displays over-temperature and fault codes
- Unit use information available via the front panel
- Unit can be used on a hard surface, or with accessories to mount on an IV pole, bed rail or rolling cart
- Compatible with all 3M™ Bair Hugger™ Warming Blankets and Warming Gowns – pediatric to adult

Model 775

Dimensions	Height: 13" (33 cm) Width: 14" (35 cm) Depth: 13" (33 cm)
Weight	16 lb. (7.3 kg)
Operating temperatures	High: 109.4°F ± 2.7°F (43°C ± 1.5°C) Med: 100.4°F ± 2.7°F (38°C ± 1.5°C) Low: 89.6°F ± 2.7°F (32°C ± 1.5°C) Ambient Room Temperature Audible and Visual Alarms, High Temperature Limit ≤127.4°F (56°C, 53°C) ±3°C
Filter	MERV 14*
Device ratings	110-120 VAC: 50/60 Hz, 11.7 Amps
Compatibility	Use only with 3M™ Bair Hugger™ Warming Blankets and Warming Gowns
Spare parts and additional items	Rolling Cart, Bed Rail Mount, Accessory Handle, Tethered Sheet Clip, Temperature Test Unit

*See the Operator's Manual for Frequently Asked Questions on Filtration.

3M™ Bair Hugger™ 675 Warming Unit

For use in all clinical settings.

- Four temperature settings including an ambient setting
- Simple, intuitive user interface
- Ergonomic hose end design allows for easy blanket insertion and a secure fit
- Audible and visual over-temperature and under-temperature alarms
- Detachable hose
- Filter change indicator
- Unit can be used on a hard surface, or can be mounted on an IV pole or on a rolling cart
- Compatible with all 3M™ Bair Hugger™ Warming Blankets and Warming Gowns — pediatric to adult

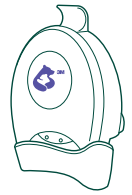

Shown with optional rolling cart 96750

Model 675	
Dimensions	Height: 14.5" (36 cm) Width: 10.5" (27 cm) Depth: 11" (28 cm)
Weight	10 lb (4.5 kg)
Operating temperatures	High: 109.4°F (43°C) Med: 100.4°F (38°C) Low: 89.6°F (32°C) Ambient Room Temperature
Filter	MERV 14*
Device ratings	110–120 VAC: 50/60 Hz, 11 Amps
Compatibility	Use only with 3M™ Bair Hugger™ Warming Blankets and Warming Gowns
Spare parts and additional items	Rolling Cart, Tethered Sheet Clip, Hose Clip, Replacement Hose, Replacement Filter, Temperature Test Kit, Power Cords

3M™ Bair Hugger™ Pediatric Underbody Warming Blanket
55502

3M™ Bair Hugger™ Full Body Warming Blanket 30000

- Provides coverage to the entire patient, maximizing thermal transfer
- Foot drape minimizes the risk of thermal injury to the feet and lower leg area
- Integrated tuck flaps at shoulders help maintain blanket position

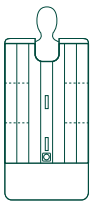

Full Body Warming Blanket 30000

Dimensions	84" x 36" (213 cm x 91 cm)
Weight	5.1 oz (145 g)

3M™ Bair Hugger™ Multi-Access Warming Blanket 31500

- Easy access to any part of the patient's body while providing full patient coverage, maximizing thermal transfer
- Six convenient panels allow quick access to the patient's chest, arms, torso and lower body
- Foot drape minimizes risk of thermal injury to the feet and lower leg area
- Integrated tuck flaps at the shoulders help maintain blanket position

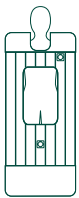

Multi-Access Warming Blanket 31500

Dimensions	84" x 36" (213 cm x 91 cm)
Weight	5.3 oz (150 g)

3M™ Bair Hugger™ Surgical Access Warming Blanket 57000

- Two resealable hose ports for versatile positioning of the warming unit
- Adaptable to a variety of procedures such as spinal, abdominal, hip and pelvic surgeries
- Attached clear head drape retains warm air around the intubated patient's head and allows observation by the clinician
- Large surgical access window provides patient access for the surgeon
- Integrated adhesive secures the surgical access window to the patient
- Foot drape minimizes risk of thermal injury to the feet and lower leg area

Surgical Access Warming Blanket 57000

Dimensions	84" x 36" (213 cm x 91 cm)
Weight	6.4 oz (181 g)
Head Drape	24" x 16" (61 cm x 41 cm)

3M™ Bair Hugger™ Lower Body Warming Blanket 52500

- For use during surgical procedures on the upper half of the body
- Effectively used for patients in the supine, lateral or prone positions
- Foot drape minimizes risk of thermal injury to the feet and lower leg area
- Adhesive strip secures blanket to the patient

Lower Body Warming Blanket 52500

Dimensions 60" x 36" (152 cm x 91 cm)

Weight 4 oz (113 g)

3M™ Bair Hugger™ Sterile Cardiac Warming Blanket 63000

- “Cummerbund” design is pre-positioned at the waist during prep, unrolled upon closure of the saphenous vein graft incision, and inflated post-bypass
- 36" (91 cm) sterile hose allows the placement of the temperature management unit away from sterile field
- Warms the lower body to reduce core-to-periphery heat loss
- Clear groin/femoral access window allows access to the femoral artery
- Positions easily in the sterile field

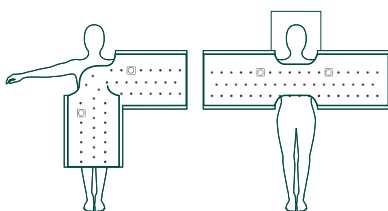

Sterile Cardiac Warming Blanket 63000

Dimensions	60" x 36" (152 cm x 91 cm)
Weight	8 oz (227 g)
Hose	36" (91 cm)

3M™ Bair Hugger™ Multi-position Upper Body Warming Blanket 62200

- Maximize patient coverage to help maintain normothermia
- Adapts to multiple surgical positions and procedures

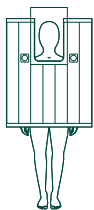

Multi-position Upper Body Warming Blanket 62200

Dimensions 78" x 24" (198 cm x 61 cm)

Weight 3.7 oz (104 g)

3M™ Bair Hugger™ Dual Port Torso Warming Blanket 54200

- Affix to the lower abdominal area and cover the upper half of the body
- Two convenient, resealable hose ports
- Effectively used for patients in the supine, lateral and other positions
- Pre-attached clear head drape retains warm air around the intubated patient's head and allows observation by the clinician
- Integrated tuck flaps at shoulders help maintain blanket position

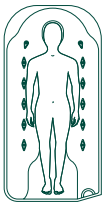

Dual Port Torso Warming Blanket 54200

Dimensions	42" x 36" (107 cm x 91 cm)
Weight	3.2 oz (90 g)
Head Drape	24" x 16" (61 cm x 41 cm)

3M™ Bair Hugger™ Adult Underbody Warming Blanket 54501

- Positioned on the table prior to the patient's arrival
- Unique fluid outlets minimize pooling of fluids on the surface of the blanket
- Ideal for patient warming during diagnostic and interventional procedures in the cardiac cath lab and the radiology suite
- Two adhesive strips under the blanket secure the blanket to the operating table
- Radiolucent materials

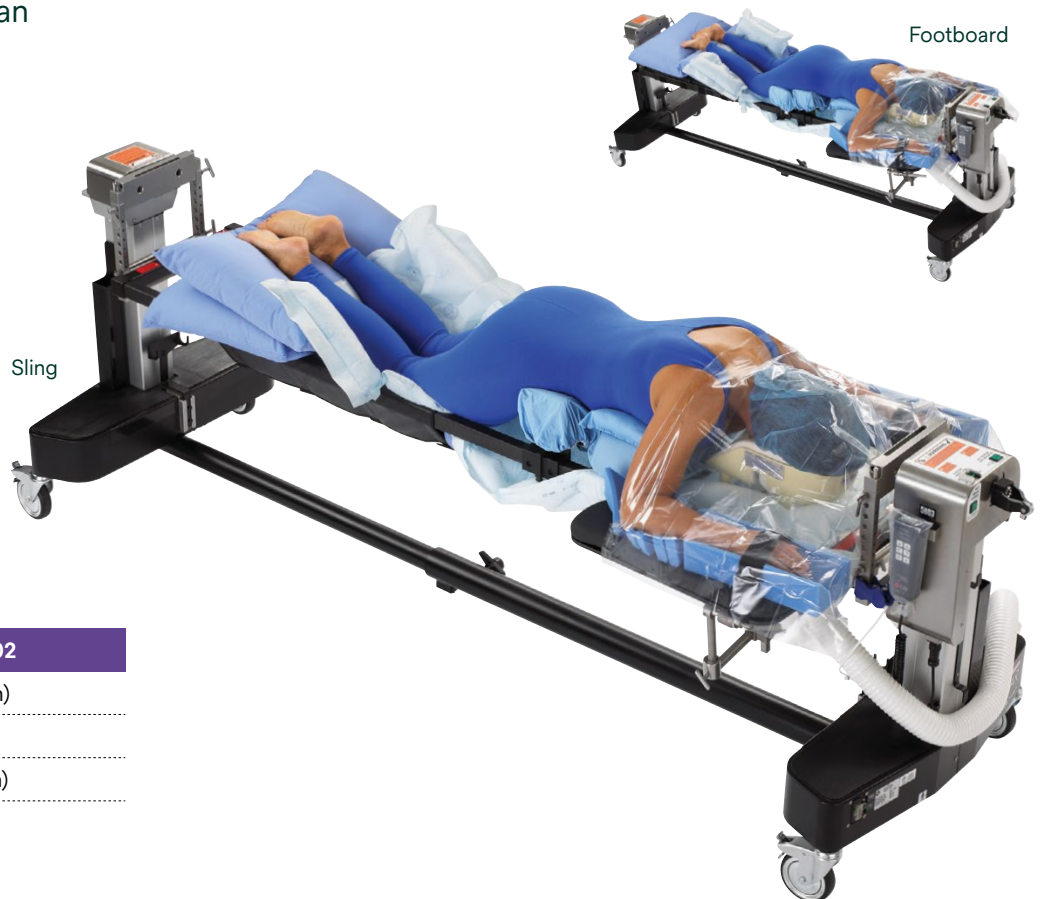

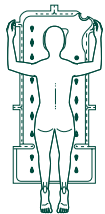

Adult Underbody Warming Blanket 54501

Dimensions	74" x 36" (188 cm x 91 cm)
Weight	5.5 oz (156 g)

3M™ Bair Hugger™ Spinal Underbody Warming Blanket 57502

- Compatible with the open frame of the spinal surgery cradle
- Won't interfere with the adjustment of the support pads
- Full patient visualization and unrestricted patient access
- Perforations on the sides of blanket allow the table frame to pass through the blanket
- A removable head section allows visualization of the patient's face throughout the procedure
- Integrated tie strips secure the blanket to the table frame
- Blanket design allows it to draw up near the patient when inflated
- Compatible with the footboards, leg sling, Wilson™ frame or head support modalities
- Included clear head drape retains warm air around the intubated patient's head and allows observation by the clinician

Spinal Underbody Warming Blanket 57502

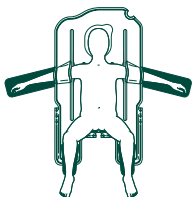

Dimensions 74" x 36" (188 cm x 91 cm)

Weight 6 oz (171 g)

Head Drape 24" x 48" (61 cm x 122 cm)

3M™ Bair Hugger™ Lithotomy Underbody Warming Blanket 58502

- Positioned on the procedure table prior to the patient's arrival
- Full, unrestricted patient access and flexibility
- Ideal for procedures involving the lower extremities, and abdominal, peritoneal and pelvic cavities
- Unique fluid outlets minimize pooling of fluids on the surface of the blanket
- Pass-through slits allow flexible patient positioning and the use of a drawsheet
- Generous peritoneal cut-out at the base of the blanket provides the clinician unobstructed access to the patient
- Integrated tie strips can be used to secure the blanket to the stirrups/leg supports
- Adhesive strips secure the blanket to the operating table
- Included clear head drape retains warm air around the intubated patient's head and allows observation by the clinician

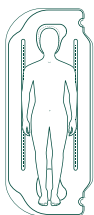

Lithotomy Underbody Warming Blanket 58502

Dimensions	74" x 36" (188 cm x 91 cm)
Weight	5.9 oz (171 g)
Head Drape	24" x 24" (61 cm x 61 cm)

3M™ Bair Hugger™ Full Access Underbody Warming Blanket 63501

- Positioned on the table prior to the patient's arrival
- Ideal for cardiac, complex or routine surgeries where the patient is in the supine, lateral or prone positions
- Unique fluid outlets minimize pooling of fluids on the surface of the blanket
- Pass-through slits allow flexible patient positioning and the use of a drawsheet
- Adhesive strips secure the blanket to the operating table
- Two resealable hose ports at either end of the blanket provide options for hose placement
- Included clear head drape retains warm air around the intubated patients head and allows observation by the clinician

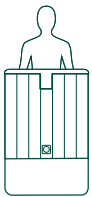

Full Access Underbody Warming Blanket 63501

Dimensions	84" x 36" (213 cm x 91 cm)
Weight	7.4 oz (210 g)
Head Drape	24" x 48" (61 cm x 122 cm)

3M™ Bair Hugger™ Small Lower Body Warming Blanket 53700

- Compact version of the adult-size lower body blanket (52500)
- Ideal for warming a large child or a small adult during upper body surgery
- Can be used in the supine, lateral or prone positions
- Can also be used as a full body blanket on smaller patients
- Foot drape minimizes risk of thermal injury to the feet and lower leg area

Small Lower Body Warming Blanket 53700

Dimensions	35" x 24" (89 cm x 61 cm)
Weight	1.5 oz (43 g)

3M™ Bair Hugger™ Large Pediatric Underbody Warming Blanket 55001

- Positioned on table prior to the patient's arrival
- Warms a large child or a small adult patient from below, while allowing clinicians full access to the patient
- Fluid outlets minimize pooling of fluids on the surface of the blanket
- Two resealable hose ports located at either end of the blanket provide options for hose placement
- Adhesive strips secures the blanket to the operating table
- Included clear drapes (2) retain warm air around the patient and allows observation by the clinician

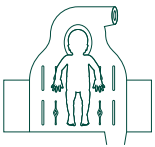

Large Pediatric Underbody Warming Blanket 55001

Dimensions	60" x 32" (152 cm x 81 cm)
Weight	5.3 oz (151 g)
Head Drape	24" x 24" (61 cm x 61 cm)

3M™ Bair Hugger™ Pediatric Underbody Warming Blanket 55502

For use in all clinical settings.

- Warms even the smallest patient while providing clinicians full, unrestricted access to the patient
- Unique fluid outlets minimize pooling of fluids on the surface of the blanket
- Consistent, even perforations across the entire blanket ensure uniform warming
- Two resealable hose ports located at either end of the blanket provide options for hose placement
- Adhesive strips under the blanket secure the blanket to the operating table
- Included clear drapes (2) retain warm air around the intubated patient and allows observation by the clinician

Pediatric Underbody Warming Blanket 55502

Dimensions	36" x 33" (91 cm x 84 cm)
Weight	3.4 oz (97 g)
Head Drape	24" x 24" (61 cm x 61 cm)

3M™ Bair Hugger™ Temperature Monitoring System

**3M™ Bair Hugger™
Temperature Monitoring
Control Unit Model 370**

**3M™ Bair Hugger™
Temperature Monitoring
Sensor Model 360**

3M™ Bair Hugger™ Temperature Monitoring System

Non-invasive, accurate core temperature monitoring system measures patient temperature with an affordable single-use sensor. Provides standardization and a consistent temperature monitoring method throughout the entire surgical journey.

3M™ Bair Hugger™ Temperature Monitoring Control Unit

Model 370

- Large numbers on display
- Temperature data transmitted to patient vital signs monitor via an optional monitor cable

3M™ Bair Hugger™ Temperature Monitoring Sensor

Model 360

- Low-touch sensor placed on patient's forehead
- Thermal insulator allows for accurate core temperature reading from skin surface
- Can be disconnected and reconnected at each point of care

Model 370

3M™ Bair Hugger™ Temperature Monitoring Control Unit

Includes: Sensor cable, control unit stand, power cord, YSI 400 .25" (6.5 mm) and .125" (3 mm) monitor cables

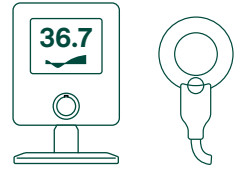

Dimensions	Height: 3.7" (9.3 cm), Extendable to 4.5" (11.4 cm) Width: 2.8" (7.1 cm) Depth: 1.7" (4.3 cm)
Weight	4.5 oz (128 g)

Model 360

3M™ Bair Hugger™ Temperature Monitoring Sensor

Dimensions	Diameter: 1.6" (4.1 cm) Thick: 0.2" (0.5 cm)

3M™ Ranger™ Fluid Warming Irrigation Set, Cat. No. 24750

3M™ Ranger™ Blood/Fluid Warming Unit Model 245

- Use with 3M™ Ranger™ Blood/Fluid Warming Sets
- Dry heat technology – no water reservoir
- Warms blood/fluid as it is being delivered to the patient
- Quickly adapts to changes in flow rates: 0 to 333mL per minute
- Monitors plate temperature, adjusting to maintain a 106°F (41°C) set point
- Audible/visible, over/under temperature alert indicators
- Cleaning tool allows cleaning the heating plates without disassembling the Warming Unit
- Meets all American Association for the Advancement of Blood & Biotherapies (AABB) guidelines for warming blood

90030

90020

Model 245	
Dimensions	Height: 4.5" (11 cm) Width: 7.5" (19 cm) Length: 10" (25 cm)
Weight	7 lb 7 oz (3.4 kg)
Set Point Temperature	106°F (41°C)
Leakage Current	Meets leakage current requirements in accordance with IEC 60601-1
Flow Rates	KVO to 333mL/min
Alerts (audible and visual)	Over-Temperature Alert: 109.4°F (43°C) Under-Temperature Alert: 91.4°F (33°C)
Additional Items	Cleaning Tool 90030, Thermocouple Probe 90020

3M™ Ranger™ Irrigation Fluid Warming Unit Model 247

- Use with 3M™ Ranger™ Fluid Warming Irrigation Sets
- Dry heat technology – no water reservoir
- Warms fluid as it is being delivered to the patient
- Quickly adapts to changes in flow rates: up to 580 mL per minute when bag is hung 100 cm above the scope
- Monitors plate temperature, adjusting to maintain a 106°F (41°C) set point
- Audible/visible, over/under temperature alert indicators
- Cleaning tool allows cleaning the heating plates without disassembling the warming unit

90030

90020

Model 247	
Dimensions	Height: 4.5" (11 cm) Width: 7.5" (19 cm) Length: 10" (25 cm)
Weight	7 lb 7 oz (3.4 kg)
Set Point Temperature	106°F (41°C)
Leakage Current	Meets leakage current requirements in accordance with IEC 60601-1
Alerts (audible and visual)	Over-Temperature Alert: 118.4°F (48°C) Under-Temperature Alert: 91.4°F (33°C)
Additional Items	Cleaning Tool 90030, Thermocouple Probe 90020

3M™ Ranger™ Pressure Infusor Model 145

- The pressure infusor includes three pieces: pressure infusor, custom IV pole and IV pole base
- Accommodates a range of fluid bag sizes, from 250mL to 1000mL
- Pressure infusor chambers function independently
- Provides maximum fluid pressure of 300 mmHg
- Use with the 3M™ Ranger™ Blood/Fluid Warming Unit and 3M™ Ranger™ Blood/Fluid Warming High Flow Sets and Standard Flow Sets (sold separately)

Model 145	
Pressure Infusor	
Dimensions	Height: 15.75" (40 cm) Width: 20" (51 cm) Depth: 7.75" (20 cm)
Weight	17 lb (7.7 kg)
Pressure	230 to 330 mmHg
Alerts (audible and visual)	Built-in audio and visual indicators should bladder pressure exceed 330 mmHg or fall below 230 mmHg during use

90068	
Pressure Infusor IV Pole	
Dimensions	Length: 73.5" (187 cm) Width: 4.5" (11 cm) Diameter: 1.75" (4 cm)
Weight	6.2 lb (2.8 kg)

90124	
Pressure Infusor IV Pole Base	
Dimensions	Length: 32" (81 cm) Width: 30" (76 cm) Height: 8" (20 cm)
Weight	35.5 lb (16.1 kg)

3M™ Ranger™ Blood/Fluid Warming Sets

- Intravenous fluid flows through sets and is warmed prior to reaching the patient
- Sets are disposable and for single use
- EtO sterilized
- Not made with natural rubber latex
- Use with the 3M™ Ranger Blood/Fluid Warming Unit Model 245 only (sold separately)

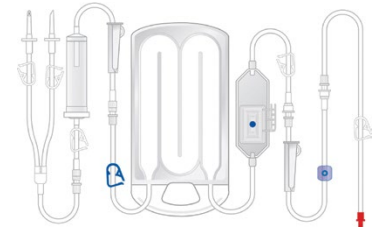

Color fluid shown for illustrative purposes only

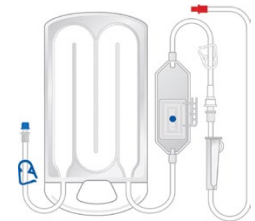

Standard flow		
24200 Flow rates Priming volume Components Pressure infusion Material Sterile	KVO-150mL/min (inlet fluid temperature, 4°C - 20°C) 39mL Fluid warming cassette, needle injection port, bubble trap, 30" (76 cm) patient line Up to 300 mmHg Not made with natural rubber latex EtO	
24240 Flow rates Priming volume Components Pressure infusion Material Sterile	KVO-150mL/min (inlet fluid temperature, 4°C - 20°C) 44mL Fluid warming cassette, bubble trap with air aspiration port, 60" (152 cm) patient line Up to 300 mmHg Not made with natural rubber latex EtO	
24250 Flow rates Priming volume Components Pressure infusion Material Sterile Extension	KVO-150mL/min (inlet fluid temperature, 4°C - 20°C) 44mL Fluid warming cassette, needleless injection port, bubble trap Up to 300 mmHg Not made with natural rubber latex EtO Luer connected 76 cm extension set on patient line	
Pediatric		
24450 Flow rates Priming volume Components Pressure infusion Material Sterile	KVO-150mL/min (inlet fluid temperature, 4°C - 20°C) 20mL Fluid warming cassette, bubble trap with air aspiration port, needleless aspiration port, 60 cm patient line Do not use with pressure, use only gravity Not made with natural rubber latex EtO	

High Flow**24355**

Flow rates	KVO - 167 mL/min (inlet fluid temperature 4°C) KVO - 333 mL/min (inlet fluid temperature 20°C)
Priming volume	150mL
Components	Fluid warming cassette, 2 IV spikes, drip chamber with 150 micron filter, needleless injection port, 60" (152 cm) patient line, auto-venting bubble trap
Pressure infusion	Up to 300 mmHg
Material	Not made with natural rubber latex
Sterile	EtO

**24370**

Flow rates	KVO - 167 mL/min (inlet fluid temperature 4°C) KVO - 333 mL/min (inlet fluid temperature 20°C)
Priming volume	89mL
Components	Fluid warming cassette, auto-venting bubble trap, 48" (121 cm) patient line
Pressure infusion	Up to 300 mmHg
Material	Not made with natural rubber latex
Sterile	EtO

**90029 Replacement Filter**

Filter	150 micron filter
Material	Not made with natural rubber latex
Sterile	EtO
Compatible	Use with 3M™ Ranger™ Blood/Fluid Warming High Flow Sets 24355, 24370

3M™ Ranger™ Fluid Warming Irrigation Set

- High-volume surgical irrigation fluid flows through disposable sets and is warmed prior to reaching the patient
- Set is disposable and for single use
- EtO sterilized
- Not made with natural rubber latex
- Use with 3M™ Ranger™ Irrigation Fluid Warming Unit Model 247 only (sold separately)

Irrigation**24750**

Components	Standard double spike and 84" (213 cm) patient line with scope attachment (patient line is contained within its own sterile packaging for use within the sterile field)
Pressure infusion	Up to 245 mmHg
Material	Not made with natural rubber latex
Sterile	EtO
