3M Health Care to Solventum: Transition Overview

In 2024, 3M Health Care spun off from 3M Company, creating a new, standalone, world-class healthcare company called Solventum. Your trusted products are staying the same — but you will see the packaging switch to Solventum branding throughout the next several years.

You may see both 3M and Solventum branded products for the next few years as the updated packaging will happen at different times.
